IRON ORE SEABORNE INDEX (IOSI)

MARKET COMMENTARY

Oct 29th, 2025		CFR Qingdao, USD/dry tonne							Today DCE Iron Ore Contract D601 closing at 804.5 yuan, up 1.96% from the previous working day. Main port spot cargo prices increased by 5-10 yuan/mt compared to the previous working day, with PB fines transaction prices in the Shandong region at 805-810 yuan, up 5-10 yuan/mt, PB fines transaction prices in the Hebei region were at 810 yuan/mt, up 5 yuan/mt from the previous working day. Market transactions were moderate today, as steel mills restocked based on demand and traders actively quoted prices. SMM tracking surveys indicated that, affected by environmental protection policies, the number of blast furnace maintenance shutdowns increased, and the daily average hot metal production decline expanded to 24,000 mt, reflecting weak iron ore demand. The first batch of ore from the Simandou mine is expected to be shipped soon, while port inventory remains at a high level, leading to a gradual intensification of the supply-demand imbalance for iron ore in the short term. Nevertheless, frequent positive factors emerged at the macroeconomic level: China-U.S. negotiations progressed smoothly and a meeting is expected to be held soon, while the A-share market index hit a ten-year high, boosting bullish sentiment and driving iron ore futures to rise for three consecutive days. In the short term, iron ore prices are likely to hold up well.

IRON ORE DOMESTIC CONCENTRATE INDEX CALCULATION METHODOLOGY

The compilation method for price index generally refers to the compilation method of CPI price index and other price indices, breakdown the price data and calculate the average value according to a certain method, taking the vertical axis as the regional composite index (average of different grade index) and the horizontal axis as the grade composite index (average of different regional index), a total composite index for domestic ore can be output ultimately. The process system is also adopted in the calculation i.e. each sub-index can be obtained as well.
